

# AGREEMENT

## on scientific cooperation

between

Volodymyr Dahl East Ukrainian National University,  
Severodonetsk, Ukraine

and

Department of Organic Chemistry of University of Córdoba  
Córdoba, Spain

Volodymyr Dahl East Ukrainian National University (Ukraine), in the person of **Vice-Rector on Scientific affairs, Economics and Development** Ruslan Halhash, from the one side and Department of Organic Chemistry of University of Córdoba, in the person of the Head of the Department of Organic Chemistry, Professor Antonio Ángel Romero Reyes, from the other side (further the Parties), reach the agreement about:

The parties agree that scientific research on developing new nanotechnologies for biomass components processing into bio-based chemicals and biofuels will be carried out through scientific collaboration.

Cooperation between parties will be fulfilled through mutual scientific visits, joint publications, lecturing, joint experiments, dissemination of the results of the research activities, etc. We expect this agreement will be a good foundation for possible future collaborative projects between Ukrainian and Spanish scientists.

Vice-Rector on Scientific affairs,  
Economics and Development.  
Volodymyr Dahl East Ukrainian National University, professor

Head of the Department of Organic Chemistry,  
University of Córdoba, Professor

Ruslan Halhash

Antonio Ángel Romero Reyes
